- Available in Natural and White
- Does not leave smears
- Non-foaming
- Low viscosity, and disperses easily in cold water
- Non-hazardous
- Biodegradable
- Solvent-free

The Finest Natural Protection

Timberex Bio-C

pH-Neutral Cleaner for Oiled Surfaces

AVAILABILITY

Available in 1 and 5 litre tins.

INSTRUCTIONS TIMBEREX BIO-C NATURAL

Light cleaning: Mix 100ml of Timberex Bio-C with 5 litres of water.
Heavy cleaning: Mix 250ml of Timberex Bio-C with 5 litres of water.

INSTRUCTIONS TIMBEREX BIO-C WHITE

This is Timberex Bio-C with white pigment added which after application produces a bright, 'scrubbed' appearance to the wood.
Light cleaning: Mix 75ml of Timberex Bio-C White with 5 litres of water. Heavy cleaning: Mix 150ml of Timberex Bio-C White with 5 litres of water.

APPLICATION

Apply the mixed solution sparingly with a damp mop, cloth or foam pad. The mixed solution may also be applied by trigger operated hand spray. Wipe the surface with a clean, slightly damp cloth and leave to dry.

IMPORTANT

Timberex Bio-C must be diluted correctly. Complete a small test area first. Damage may occur to timber floors subjected to excessive moisture/water.

SAFETY

The product may be irritating to the eyes. If eye contact occurs rinse immediately with plenty of cold water. All product labels provide general safety information. Material Safety Data Sheets are available. Food products must be removed from the area during application and cure.

ORDERING

Available through distributors worldwide. All products are sold subject to the Company's Standard Conditions of Sale. The Company and its representatives are often asked to comment on the potential uses of Timberex products which differ from those described in the Company's data sheets. Whilst in such cases the Company and its representatives will always try to offer helpful and constructive advice, the Company cannot be held responsible for the results of such uses unless they are specifically confirmed in writing by Timberex International
